**BLOCK WATCH NEWSLETTER**  
JUNE 2014

School is out until August 13! This means a lot of children will be out playing. Everyone needs to make a special effort to slow down when driving through neighborhoods. Special attention should be given when driving past vehicles parked on the road and children on bikes, because you never know when they will dart out in front of you.

A majority of our young people are involved in constructive activities during the summer; however, there is a small percentage that are not. These groups cause the majority of criminal mischief and thefts.

A way you can assist the police is to know where your own children are, whom they are with and what they are doing. There is nothing constructive young people can be doing out roaming the streets after dark.

Please help us monitor the situation. If you see large groups of young people hanging around the neighborhood at unusual hours, or if you see or hear any suspicious activity, please call the police department right away! Help us help you!
