## **BLOCK WATCH NEWSLETTER** **FEBRUARY 2016**

This month I would like to remind you how to identify and report suspicious person(s) or vehicle(s).

Do not try to rely on your memory in a stressful situation. Write down any information or take notes in your cellphone. Take pictures of suspicious person/s or vehicle/s. To record the information on a suspicious person(s), start at the top of the head and work your way down the body. Examples: Hat (color, type, etc.), hair (color, bald, etc.), facial hair (beard, mustache, etc.), coat (color, style, etc.), shirt (tie, T-shirt, dress, etc.), pants/dress (color, style, length, etc.) shoes (color, style, etc.). What sex, race, age, height, weight, scars or marks. Any weapons (handgun, shotgun, rifle, knife, etc.). Record the date, time and direction of travel of the person(s). The more information you provide, the better chance we will have to find them.

To record the information on a suspicious vehicle(s), write down the most accurate information you can observe. If you know the make, model, year and license number, record this. If you do not, write the vehicle size (full, medium, compact, truck, van, motorcycle, etc.), two doors, four doors, color (if dark outside, light or dark color), two or four headlights, shape of tail lights (are any of these lights burned out?), and observable damage, parts missing, loud muffler, how many people in the car, direction of travel, and any other detail you observe. Record the date and time.

Do not take the attitude the person(s) or vehicles(s) will be gone by the time police get there. Remember they may be there legitimately or up to no good. Let the police check it out. Help us help you!
